# YEAR 3 KNOWLEDGE ORGANISER

# Autumn 1

PE Netball

**Our goal Work together to keep possession, create chances to score and win the ball back.**

## 1 Pass and receive

Check your teammate is ready. Turn your hips to face where you want to pass.

Send the ball carefully. Let your hands follow through towards your teammate.

Show your hands when you are ready. Catch the ball and take control of it.

## 2 Move and create space

After passing, move into a new space.

Move to the side of a defender so your teammate can see you.

Make a simple team plan. Help everyone understand where to move.

## 3 Attack and shoot

Pass and move together towards the target.

Get close enough for a good shot. Turn your body to face the target.

Too far away? Pass to a teammate in a better position.

## 4 Defend together

React quickly when your team loses the ball.

Choose which attacker to mark. Watch them and follow where they move.

Stay between your attacker and the ball. Try to catch a pass from the other team.

## 5 Switch your role

**Our ball = attack.** Find space, offer a pass and create a good shot.

**Their ball = defend.** React and mark an attacker.

After the game, share one thing you did well and one thing to practise.

## 6 Be a great teammate

**Cooperation:** communicate kindly and include everyone.

**Integrity:** play fairly and follow the rules.

**Determination:** keep trying, even after a missed shot.

## Words to know

**Possession** - having control of the ball. **Tactics** - plans that help your team.

**Target** - what you aim at. **Accuracy** - sending the ball where you mean it to go.

**Intercept** - catch or stop an opponent’s pass before it reaches their teammate.

**Pressure** - making it harder for the other team to pass or shoot.

## Can you explain it

Why should you move after passing?

When is a pass better than a shot?

What changes when possession changes?

Based on the six lessons in our Year 3 netball unit
