YEAR 4 KNOWLEDGE ORGANISER

Autumn 1

PE Netball

Our goal Work together to keep possession, create chances to score and win the ball back.

1 Pass and receive

Look for a teammate who is ready. Face their target with your hips.

Pass accurately and follow through towards the target.

Show your hands and control the ball as you receive it.

2 Move and create space

After passing, move into a new space.

Move to the side of a defender so your teammate can see you.

Agree a simple team plan so everyone knows where to move.

3 Attack and shoot

Pass and move together towards the target.

Get close enough for a good shot. Face and aim at the target.

Too far away? Pass to a teammate in a better position.

4 Defend together

React quickly when your team loses the ball.

Agree who will mark each attacker. Watch and follow their movement.

Stay between your attacker and the ball. Watch for a pass to intercept.

5 Switch your role

Our ball = attack. Find space, offer a pass and create a good shot.

Their ball = defend. React and mark an attacker.

After the game, discuss what went well and what to improve.

6 Be a great teammate

Cooperation: communicate kindly and include everyone.

Integrity: play fairly and follow the rules.

Determination: keep trying, even after a missed shot.

Words to know

Possession - having control of the ball. **Tactics** - plans to help your team succeed.

Target - what you aim at. **Accuracy** - sending the ball where you mean it to go.

Intercept - catch or stop an opponent’s pass before it reaches their teammate.

Pressure - making it harder for the other team to pass or shoot.

Can you explain it

Why should you move after passing?

When is a pass better than a shot?

What changes when possession changes?

Based on the six lessons in our Year 4 netball unit
