YEAR 2 KNOWLEDGE ORGANISER

Autumn 2

PE Football

Our goal Dribble, pass and shoot with control. Find space and play fairly.

1 Dribble with control

Use lots of little touches with your feet.

Keep the ball close to you.

Look up and find a clear space.

Move at a speed that lets you keep control. Try using both feet.

2 Pass to a partner

Look at your partner before passing.

Put your non-kicking foot next to the ball.

Use the inside of your kicking foot. Follow through towards your partner.

Choose a gentle, accurate pass.

3 Receive and move

Face the ball as it comes towards you.

Use your foot to stop and control it.

After passing, move into a nearby space.

Let your partner know you are ready for the next pass.

4 Shoot at a goal

Look at the goal.

Put your non-kicking foot beside the ball.

Strike with your laces or the side of your foot.

Use your arms to help you balance. Aim carefully before adding power.

5 Attack and defend

Attack: try to score for your team.

Defend: try to stop the other team scoring.

A defender can stop a pass with their foot before it reaches a teammate.

Take turns in both roles.

6 Play together

Find space, control the ball and choose when to pass or shoot.

Talk kindly and help your partner.

Listen and follow the game rules.

Keep trying. Tell your partner one thing they did well.

Words to know

Dribble - move the ball with small touches of your feet.

Pass - send the ball to a teammate. **Shoot** - kick towards a goal.

Space - an open area where you can move safely.

Control - keep the ball close and make it go where you want.

Can you explain it

How do little touches help you dribble?

Which part of your foot can make a pass?

What does a defender try to do?

Based on our Year 2 football dribbling attack and defence unit
